

PRODUCT-DETAILS

4894700-C

Rectifier unit for LAFE/GDE exciter.

General Information

Product ID	4894700-C
ABB Type Designation	Likriktardon för LAFE/GDE matare
Catalog Description	Rectifier unit for LAFE/GDE exciter.

Ordering

Country of Origin	United States (US) Sweden (SE)
Customs Tariff Number	85049091
Selling Unit of Measure	piece
Minimum Order Quantity	1 piece
Stocked At (Warehouses)	Wickliffe, Ohio, United States Västerås, Sweden

Dimensions

Product Net Weight	82 kg
--------------------	-------

Additional Information

Technical Information	Refurbished rectifier unit for LAFE/GDE exciter. At exchange: Important to check & note trigger pulse level on the old unit. If order, we also need the customer's old rectifier unit in return before delivery of the refurbished rectifier. The old unit has to be in good condition (no mechanical damages), otherwise we can't proceed with an order. We will send our stored refurbished unit to you 2 weeks after we have received your unit and we have ascertained that your unit is at good condition, without mechanical damage. If any mechanical damage, we can't proceed with an order. Reservation for presale. Trigger pulse level needs to be set according to the replaced control pulse unit before installation. As this is a limited part for an obsolete product, with very limited support and manufacturing (including assembly process), it will require site adjustments and modification to fit existing exciter rotor. This replacement work must be done with technical skilled and knowledgeable personnel
