ARBus

ARBus Modubus Interface

General Information

Extended Product Type	ARBus
Product ID	2CSF300130R1989
EAN	8012542293354
Catalog Description	ARBus Modubus Interface

Long Description

F-ATI and F-ARI Test are RCCBs equipped with automatic test features. RCCBs are supposed to be checked periodically in order to make sure that the contacts are working properly and the device is able to trip in case of leakage to earth. This swift operation affects the operational continuity of the circuits downstream. F-ATI and F-ARI Test ranges push the periodic test to another level as this is run automatically and with no downtime. Therefore, also the operations carried out by maintenance personnel are reduced to the very minimum. In addition to the automatic test, F-ARI Range features a reclosing unit that tries to reclose the RCCB as it trips. The reclosing operations are based on an insulation check to make sure that no permanent fault is present.

Technical

Product Name	Modubus Interface
Rated Operational Voltage	230 V AC
Power Loss	1 W
Accessory Type	Communication and measuring function
Accessories Available	Yes
