

## PRODUCT-DETAILS

# 3BDH000616R1

## CI 150-P, Connection Module

### General Information

|                      |                                                                                                                                                                                                                                                                                                                                                                                                |

| ABB Type Designation | 3BDH000616                                                                                                                                                                                                                                                                                                                                                                                     |
| Catalog Description  | CI 150-P, Connection Module                                                                                                                                                                                                                                                                                                                                                                    |
| Long Description     | <p>For racks with backplane 2 (BP2, BP3) (delivered as from 1999). This backplane supports additional single or redundant controllers (PROFIBUS I/O) in slot 05 and 07. The connection to the bus network is made by the bus connection module CI 150 in slot 04.</p> <p>PH 890: The bus connection module CI 150 is necessary on slot number 08 to connect the Cnet to other controllers.</p> |

### Additional Information

|                    |                                                                                                                                                                                                                                                                                                                                                                                         |
