Freelance 2019 Engineering Professional

General Information

Product ID	3BDS008520R10
ABB Type Designation	v.2019
Catalog Description	Freelance 2019 Engineering Professional
Long Description	With Freelance, all engineering work is performed with one single tool, Freelance Engineering, which works hand in hand with the visualization and operation tool Freelance Operations. Configuration of all plant objects - ranging from process graphics to field devices and operation of the entire plant - is easy and intuitive to perform. The entire Freelance system can be configured either online, while the engineering tool is connected to a controller, or offline. For offline configuration, no controller is necessary. The application program, that was created during offline configuration, can later on be downloaded to a controller. Freelance Engineering Professional supports 16 Character Tag Names, User Defined Function Blocks (developer/runtime license), OPC Function Block Classes (developer/runtime license), WEB Display Configuration, Security Lock, Ext. User Management, FDT Technology, DTM Device Driver.
